

## SUSTAINABILITY POLICY

Zulal Wellness Resort is a pioneering destination in the Middle East which blends Traditional Arabic Islamic Medicine with a holistic health and wellbeing philosophy, established by Chiva-Som, the internationally acclaimed wellness resort in Thailand. We welcome guests from all over the world to our coastal home on the northern tip of Qatar, where we offer two distinct yet interconnecting experiences. Zulal Serenity is dedicated to adult guests seeking an immersive health and lifestyle reset, while Zulal Discovery invites families to connect and embark on a wellness journey together. We aim to inspire you with positive and sustainable lifestyle change.

At Zulal Wellness Resort, we are committed to high standards of performance and advocate socially and environmentally sustainable business practices. Our objective and focus are to bring a positive benefit to the societies in which we operate through high quality services, economic growth, environmental protection, community involvement and conservation of local culture. In order to adhere to these principles, we endeavour to:

1. Set sound environmental and social objectives and targets and integrate a process of review and reporting.
2. Comply with all applicable environmental laws, statutes, regulations, and other requirements.
3. Continuously improve sustainability performance and reduce environmental impact of our activities.
4. Create environmental awareness among our employees, customers, suppliers, and the community.
5. Apply sustainable practices, innovations, and technology to reduce energy & water consumption and minimize waste production.
6. Implement sustainable initiatives to conserve the natural resources and local Islamic culture in our area of operation.
7. Promote local community involvement in the conservation of natural resources through education and awareness activities.

Heinrich Morio

General Manager, Zulal Wellness Resort, Qatar
